Overman's Anti-Injunction Amendment Adopted. 33 to 25-La Follette's Making Telegraph and Telephone

I mes Common Carriers Also Adopted. Washington, June 2 .- Another full day in the Senate was devoted to the conferation of the railway bill, but the measure was not disposed of, and an effort made just before adjournment to get an agreement for a final vote at 3 o clock to-morrow afternoon failed be-cause of objection by Senator Clapp of

Many additions were made to the bill Senator La Follette again appeared as a constructive statesman, and when he got through adding Wisconsin ideas to the bill it had taken on a fairly new appearance Which led Senator Brandegee of Connecticut to observe that the bill in its present form included about everything as common carriers except carrier pigeons, and he was inclined to the insurgents had overlooked

Another effort was made to-day to pass the physical valuation amendment. Encouraged by the fact that he came within otes of success yesterday with such an amendment, Senator Simmons of orth Carolina returned to the attack to-day, introducing the proposition in a modified form. The modified Simmons amendment authorized the Interstate Commerce Commission in its discretion to direct the taking of the physical valuaon of any railroad engaged in interstate Senator Simmons and Senafor La Follette, who has been a physical aluation advocate for years, were hope of winning the day The insurgents and the Democarts mustered two more rotes to-day, increasing their strength from 28 to 30 but the Republican leaders of the Senate also were active and added two votes to their strength of yesterday. learing the Simmons-La Follette comination still two votes short of success. But hope aprings eternal for friends of the physical valuation feature and they will demand one or more roll calls on the subject matter when the bill gets into the Senate after being completed in the committee of the whole

The most important incident in the consideration of the railroad bill, however, was the adoption of Senator Overman's anti-injunction amendment. By a vote of 33 to 28 Democrats and insurgents Republicans voting in the affirmative, the Overmen amendment was adopted as a substitute for an amendment that had heen offered by Senator Crawford of South Dakota. The Republican leaders first tried to lay the Overman amendment on the table, but failed.

The amendment had previously been asidered as an independent bill by the Judiciary Committee of the Senate, was favorably reported and is now on the Senate calander. In proposing it Senator Overman called attention to the fact that the bill was known as one of the features of President That's legislative programme, that it had the approval of the Judiciary Committee and of Attorney-General

The Overman amendment is intended o limit the Federal courts in the matter of enjoining State officers in administering wo cent fare laws and other anti-railroad legislation. It is aimed to prevent a repetition of conditions that occurred in Minnesota. North Carolina and other States when the Federal courts through njunctions nullified legislation by the States affecting railroads.

The amendment provides that no interocutory injunction suspending or reof a State shall be usued on grounds of fact that constitutionality unless the application for the same shall be presented to a June. Judge or to a District Judge acting as a because and the mignetion shall not be tested inless a majority of the three Judges shall

There have been ten days of fierce fighting on the outskirts of this city. The fighting began on the afternoon of May 23, when divisions of the besieging army under Gens Lara and Gudoy attacked this city on the south and west. Estrada's troops were fortified in trenches n the rear of the city. Approaches to the fortifications had been thoroughly mined by a young American. Phil Pitman of Boston. These approaches led to trenches on three high hills under direct ommand of Gens. Estrada and Chamorro.

Washington, June 2.—Thomas P. Moffatt, American Consul at Bluefields, sent a report to the State Department to-day confirming the press despatches of the defeat of the Madriz forces under Gen. Lara. His despatch was dated May 30 and was apparently delayed in transmission. The estimated casualties, he said, were 150 killed, 250 wounded and 300 captured. Gen. Estrada, the leader of the revolutionists, Mr. Moffatt added, was aiding the wounded. Gen. Lara was in full flight, and the remnants of his army were said to be in a pitiable condition. He had abandoned several camps with numbers of wounded.
